FOREIGN CUSTOMERS - SHIPPING YOUR PRODUCT TO NIKON USA FOR SERVICE

International shipping is a complex matter that requires special documentation and procedures in both the USA and your country. If your product was purchased from the US, has a Nikon USA warranty, and is being sent to Nikon USA for warranty evaluation or service after the warranty period is past, please include paperwork requested by your specific country.

Requirements:

- Ship your product (preferably via UPS) to us with all freight, duty, brokerage and shipping prepaid (Free Domicile) Shipping and customs clearance to Nikon is not covered.
- Please confirm what documentation is needed to receive your repaired product back through your country's customs service. Please keep copies of all your documentation as it will be necessary for importation upon return to you.
- Please describe the item properly and fully, i.e. **"digital camera model L3."** including where made/country of origin.
- If the repair service is covered by our warranty, we will cover the return shipping freight cost to you. What if the repair is not covered by Warranty?
- Any and all import duties, taxes and service fees imposed on the return shipment to your country are your responsibility.
- We ship internationally via UPS, therefore, please provide your street or mailing address for your return shipment. PO Boxes are not acceptable.

Follow guidelines set by your local customs agency and Nikon so that we may receive your Nikon product in the USA Also, please retain copies of the needed documentation to receive your item back after service. Nikon Inc. USA prefers to return to US addresses (riflescopes excluded).
